

Observed proximity between AC-feasible projections and support-point convex hulls

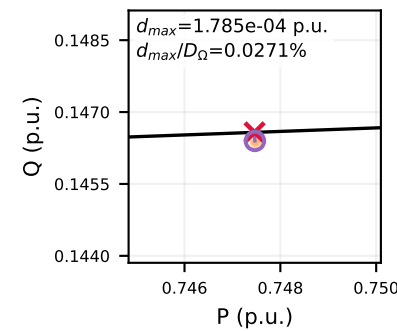

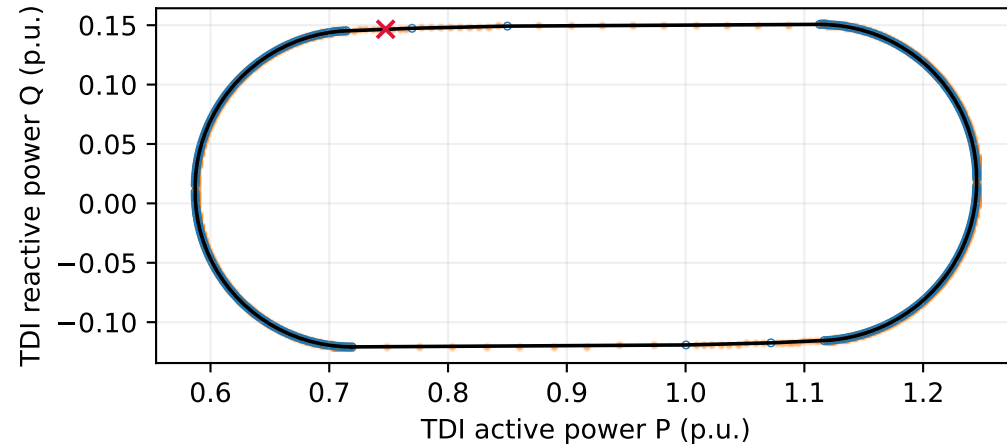

33-bus system (condition 10)
max normalized distance = 0.0687%

118-bus system (condition 2)
max normalized distance = 0.0297%

533-bus system (condition 8)
max normalized distance = 0.0271%

36-bus three-phase system (condition 7)
max normalized distance = 0.0741%
